

Ginger's Home

Dear Cattails- I wanted to thank you all, as well as Ginger's previous family for helping me find Ginger. She has brought so much joy to me already and it has only been a couple weeks. I am guessing with all her purring, licking, and cuddling that I am making her happy as well! It is so nice to come home from class and have her greeting me right when I open the door. She sleeps with me every night and I spoiled her rotten with lots of toys! She is such amazing company for me while I am living alone here at school far away from all my family in NJ. She was truly a blessing! I have attached a few pictures of her and will send an update again sometime soon. Thank you again!
