

Nadia

Dear Cat Tails,

Nadia wanted to say hello (meow) to everyone who cared for her during her time with Cat Tails, and give you an update.

I am the Queen of my home and all the toys are mine. I get all the rubs and playthings I want. Toes under the sheet is a great morning game. The beds and couch are my thrones and my subjects are ever doing my bidding.

Audra and I have loved having Nadia in our home for 4 weeks, though it seems like longer. We adore her and she has brought so much joy and entertainment to our lives. Her favorite toy is the wand (which she has 3 of) and she is a natural acrobat, doing flips, and jumps that impress us and our friends during play time. She follows us from room to room looking so cute that she always gets scratches and rubs. She cuddles next to us on the couch or floor or bed, and she greets us excitedly each time we return home.

With Love and Appreciation,
Megan and Audra
