

Willow's Home

Hi Everyone.....I just wanted to give you an update on Willow. I adopted her this past forth of July weekend. She is loving life in Raleigh and has a cat sister named Grace. The two of them love playing together, chasing string all around the house and looking at all of the crazy birds outside from all of the windows of our house. Thank you so much for providing the opportunity to adopt her....she is definitely a blessing in my life. Thanks for all of the hard work and love that you put into each and every day to save these beautiful kitties and place them in loving homes. I have included a recent picture of Willow in this email :) Many thanks again and have a blessed day!
